

Goldring Replacement Sytlus Compatibles 1000 Series

Basically, the replacement needles for the models G1006, G1012GX, G1022GX, G1042 are compatible with each other, as all system housings are mechanically identical. The sound quality differs due to the respective needle insertion. Thus, the playback quality is improved by using the next better plug-in unit. An ideal up/downgrade system .
